

# A day in the life of... Kevin Pinto, Senior Software Engineer

## Team

06.07.23

### How long have you worked at TAB?

I joined TAB in July 2020 to build up the tab software/website to automate all of TAB's internal processes with Mark (technology director), I still remember speaking to Duncan (CEO and founder) and in my interview him saying **"build me a website"** and me replying **"yes I can do that, it is what I am good at doing"**.

I am an experienced software engineer with a postgraduate degree in computer Science with a demonstrated history of working in the computer software industry.

### What does your role at TAB involve?

- Making sure that the TAB website is stable and running smoothly at all times.
- Introducing new tech releases and changes
- Training TAB staff on how to use TAB platform
- Mentoring junior devs
- Understanding the business daily requirements and building up TAB Tech to easy out work loads for different departments
- Researching new tech and development.

### What's the best thing about working at TAB?

Whenever I see any/all tab team members using the TAB platform I feel proud of myself and it makes me want to improve the TAB platform and take it to the next level. I do believe that tabhq.com is my

baby that I need to nurture which will take us to the next level. That is the best thing for me about working with TAB. Some other great things about TAB is the delicious free food from chef, the seating/layout in the office and the motivated people around me.

**What is your favourite band or artist?**

Maroon 5

**If you could have one superpower, what would it be?**

I would love to be able to fly!

**What is your favourite restaurant?**

Bang Bang Food Hall in London

**What is your favourite holiday destination?**

Philippines boracay island

**What is your daily coffee intake?**
